

# **I. Ships and Aircraft**

---

*Section I of the Modifications of Activities Planned for 2000-2001  
lists any changes to ship and aircraft usage  
planned for this time period.*

## **Ships**

A second cargo vessel, the ARCHANGLEGRACHT, was chartered to deliver needed material to McMurdo Station February 16- 18, 2001.

## **Aircraft**

A Basler Turbo-67 aircraft (DC-3 airframe), chartered from Leading Edge Aviation in Missoula, Montana, performed intra-continental flights in November and December 2000.

Two Twin Otter aircraft from Ken Borek Air Ltd. were deployed to the continent in late April to effect a medical evacuation from South Pole Station. One person left the station for medical reasons.

A New Zealand Air Force LC-130 aircraft made a non-scheduled flight to McMurdo Station in late April to effect a medical evacuation after station closing. Eleven persons left the station at this time for medical/personal reasons.
